Black First: The Blackness Continues is a powerful and inspiring book that chronicles the journey of a group of young black men from the streets of South Africa to the halls of Harvard University. Through their stories, the book explores the themes of race, identity, education, and empowerment, and offers a unique perspective on the challenges and triumphs of being black in today's world.

The book begins with the authors' childhoods in South Africa during the apartheid era. They grew up in a world of poverty and violence, and were often subjected to racism and discrimination. Despite these challenges, they all had a strong desire to learn and to make a better life for themselves.

After graduating from high school, the authors were accepted to Harvard University. They were the first black students from their township to attend Harvard, and they faced a number of challenges in adjusting to their new environment. They were often the only black students in their classes, and they had to deal with the stereotypes and prejudices that many people held about black people.

Despite the challenges, the authors persevered. They worked hard in their studies, and they eventually graduated from Harvard with honors. After graduating, they returned to South Africa to work in their communities. They are now all successful professionals, and they are using their skills and knowledge to make a difference in the lives of others.
