What is mentalism?

Mentalism is the art of using psychological techniques to create the illusion of mind reading, telepathy, and other psychic abilities. Mentalists use a variety of techniques to achieve this, including:

- Cold reading: This is the ability to make accurate guesses about a person's personality, thoughts, and experiences based on their appearance, behavior, and other subtle cues.

- Hot reading: This is the ability to gather information about a person beforehand, such as by reading their social media profiles or talking to their friends. This information can then be used to make more accurate guesses about the person's thoughts and feelings.
- Hypnosis: This is a state of heightened suggestibility that can be used to create the illusion of mind control. Mentalists can use hypnosis to make people forget things, believe things that aren't true, or even experience hallucinations.
- Suggestion: This is the ability to influence someone's thoughts and behavior without using hypnosis. Mentalists can use suggestion to make people do things they wouldn't normally do, or to believe things that they wouldn't normally believe.
