In the dense forests of India, where nature's beauty and danger converge, wildlife conservationist Valmik Thapar embarked on an extraordinary journey that would forever change his life. For decades, he lived and worked among some of the world's largest and most magnificent creatures – tigers.

In his captivating book, *Living with Tigers*, Thapar chronicles his unforgettable experiences, offering an intimate glimpse into the secret lives of these elusive animals. Through stunning photography and compelling prose, he reveals the intricate social structures of tigers, their hunting strategies, and the challenges they face in a rapidly changing world.

Thapar's deep compassion for tigers is evident in every page of this book. He recounts stories of their playful interactions, their fierce hunting prowess, and their unwavering love for their young. But he also highlights the threats that tigers face, from habitat loss to poaching, and the urgent need for conservation efforts to protect these majestic creatures.

Living with Tigers is not just a book about wildlife; it is a testament to the power of human connection with nature. Thapar's experiences with tigers have transformed his life and inspired him to dedicate himself to their conservation. Through his work, he has raised awareness about the importance of tigers and their role in the ecosystem, and has played a pivotal role in protecting these magnificent creatures for future generations.

If you are fascinated by the beauty and mystery of tigers, then Living with Tigers is a must-read. This unforgettable journey into the heart of the wild will leave you with a profound appreciation for these magnificent creatures and a deep understanding of the challenges they face.

BOOK REVIEWS

India's tigers are about 1200 in 1500 tiger sites in India. Our new government plan will count tigers from May 2014 with the intent on the Sariska tiger that government failed to save and has little money left of what will happen next.

"My message to those who read this interview is that saving wild tigers will bring a path of peace through a sustainable future. It is the greatest challenge to engage in it has been for me. The most accomplished being on this planet. There have been challenges this battle, as the future of the tiger is at stake for what governments do but how their permit and those decisions making with those who love the tiger without being in official positions. The future is more partnerships with NGOs, wildlife tourism players, scientists and many more. This is not only my approach but also all our partners' approach to tigers." - *Thapar*
